The speakers were: President David John, Bishop T. N. Taylor, and Elders E. C. Bishop T. N. Taylor, and Elders E. C. Henrichsen and Abraham Halladay, who each eulogized the departed. A large cortege followed the remains to the cemetery: the grave was dedicated by Elder E. C. Henrichsen.

A little circumstance happened when the body was moved from the home to the meeting home. But shows the kind-

the meeting house, that shows the kind-liness of Brother Sawyer in his life time, and also that the little ones are appreciative. From fifteen to twenty little boys, children of the neighbors, who of late years have enjoyed his companionship and conversation at and near his home, came and asked to b permitted to escort the body to the meeting house. They were of course invited to do so, and solemnly followed the bier of their venerable friend to the ward house.

Special Correspondence. St. George, Washington Co., Jan. 30,-We are having very cold weather for Dixle-only two degrees above zero this morning. About a week ago 6 inches of snow fell in one night and continued for several days, so that all the hills in sight of this city are covered with the beautiful. There is considerable yet remaining in this valley and looks like it is going to stay all winter. Ponds and reservoirs are frozen over and the boys are having a good time skating. Ice houses are being prepared and some of our enterprising citizens intend put-ting up large quantities of ice.

BIG SHIPMENT OF MUSTANGS Forty-One Carloads of Wild Horses In One Shipment.

Milford, Feb. 1 .- The biggest shipment of horses ever sent out of Utah went forward from Milford last Monday night. It consisted of forty-one carloads, with an average of thirty-two horses to the car, making a total of 1,312 head. These horses brought \$5 and \$6 apiece, aggregating over \$7,000 making a total of \$9,000 worth shipped out of Beaver county this season. These horses were purchased by F. C. Erwin and L. M. Delaney, representing Thuet Brothers of Sioux City, and will be sold at auction at that place. Many different owners were represented in the deal, as every man in this section who had horses on the range gathered up all that he could find. There were about 500 head from Minersville, over 200 from Wah Wah, and 150 from Beaver owners and they were gathered all the way from Escalante to Pine Grove valley, B. B. Bingham of Minersville was probably the largest individual owner, These animals were in excellent con-dition, considering the season, those from Wah Wah being quite fat. There were some handsome steeds in the lot and a good team could have been pur-chased for about \$15. Very little atten-tion has been paid to range breeding

during recent years, but some of these horses show the mixture of good blood with the native stock.

The stock pens presented a lively appearance while the horsese were being loaded Monday, but beyond a few warm words over the ownership of certain animals, no trouble occurred. Mr. Bingham of Minersville claimed some twenty-five more head than he received credit for and went up to Ogden to straighten out the trouble.

Cold and Snow-Snake River Frozen - Weather Favors Sheepmen.

Special Correspondence. Parker, Fremont Co., Ida., Jan. 31 .-

There are a few mild cases of measles among the children. This is the only sickness among us.

After a month or six weeks of the finest weather ever seen, we had a new fall of snow on Tuesday night, Jan. 21, and again on Friday, the 24th, followed by a keen northeast wind. Since then the thermometer has been 20 to 26 below zero. The ground being frozen hard before the snow, furnished the best sleighing we have had for years. We have had all manner of shows here lately, good, bad and indifferent, chiefly the last described, and the young idea, not having been taught to act decorously, are so consterous that there is but little enjoyment for eld-

erly people. The pleas pleasant weather spoken above has been matter for self-gratulation among the sheepmen as it has saved them hundreds of tons of hay. ur esteemed Bishop, E. Z. Carbine, has determined on moving to his new home in Oregon very shortly, instead

waiting longer.
The North Fork of the Snake river is choked again and teams are crossing on the ice. Thousands of tons of congealed aqua pura are being stored away for the time when the mercury will be attempting the other extreme We had more snow last night.
